

Dear Valued Cousin's Patrons,

Please note that due to the recent dramatic price increases of meat, we've had to adjust our menu prices to reflect this market change.

Because meats have become a limited commodity in our current unprecedented times, we have been forced to make unexpected price increases on the items on our menu. As the market stabilizes and becomes less volatile, we will lower our menu pricing to reflect that stabilization.

We hope this will be a brief and temporary occurrence, and as always, please know that we here at Cousin's value and appreciate your patronage. We couldn't do without YOU; for it is YOU who is truly our most precious commodity.

Thank you for your understanding at this difficult and challenging time, and please stay safe and healthy.
